Duration: 1 year

Fluent German skills required

Major accountabilities:

- Contact person for products and process problems that arise during the ongoing process
- Collaboration in the preparation of Standard Operational Procedures for routine processes and inputs for electronic master batch record documentation,
- Lead thorough Root Cause Investigation Process using investigation tools and methodology
- Application of deviation, complaints, and the implementation of effective corrective actions
- Team player with strong team spirit

Key performance indicators:

- Compliance/Quality related KPI's
- Customer Complaints
- Batch Success Rate

Work Experience:

- work experience in a GMP environment desirable.

Skills:

- Master degree in Pharmacy , Pharmaceutical Technology, Chemistry or equivalent , also Postgraduate with 1-2 years experience desirable

Languages :

- Proficient in German and advanced English required

Please submit a cover letter that includes your motivation for the position and from when you will be available.
Thank you.

Commitment to Diversity and Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Accessibility and accommodation:

Novartis is committed to working with and providing reasonable accommodation to all individuals. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to receive more detailed information about the essential functions of a position, please send an e-mail to diversity.inclusion_ch@novartis.com, and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other.

Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
